

Jordan to host GAIF 2026 General Conference

The General Arab Insurance Federation (GAIF) 35th General Conference will be held in Jordan on 4-7 October 2026, the Jordan Insurance Federation (JIF) announced.

In a statement, the JIF said, “The conference will be a global event and a major economic forum, with Jordan set to attract the attention of many economic and insurance thought leaders from around the world. It will also serve as a platform for dialogue, exchange of expertise, and exploration of the future of the insurance industry in the region.”

The GAIF biennial event is considered the most important and largest pan-Arab gathering. The previous conference (34th edition) was held in Muscat and attracted over 2,000 delegates. The last time Jordan hosted the GAIF Conference was in 2010 at the Dead Sea.
